Universal mental healthcare is a human right. Let’s scale it up!

Programa Nacional de Diagnóstico y Tratamiento de la Depresión (PNDTD)
National Program for the Detection, Diagnosis, and Treatment of Depression in Chile

Key drivers for national scale up:
• Scientific evidence
• Teamwork and leadership
• Strategic alliances
• Program institutionalization

Five-fold increase in visits to primary care for mental health conditions

For only 0.10 USD per person per day
